### 3.5 FOREST TRAINING SCHOOL

The executive staff of the Forest Department up to the level of Round Foresters are given training at the Forest Training School, located at Valpoi in Sattari taluka. The training school has its own campus with administrative building, playground, nursery and a modern auditorium. Forest Guards' training lasts for six months, and that of Round Foresters for one year. Besides the regular training schedules, refresher courses are held from time to time.

The campus also houses a Tissue Culture Laboratory where micro-propagation of woody tree species and rare orchids are being carried out by the Research and Utilisation Division. Research projects by different colleges are also supported by the Forest Training School.
